ASHOK LEYLAND

About Us:

Parashar Radiator Sales –

At Parashar Radiator Sales, we specialize in providing high-quality radiators, intercoolers, oil coolers, and condensers for passenger vehicles, commercial trucks, and heavy-duty applications. With a strong focus on genuine quality, competitive pricing, and reliable supply, we have become a trusted partner for automotive workshops, spare part dealers, and fleet operators.

We deal in a wide range of leading radiator brands such as **Tata Toyo, Banco, Alkraft, Behr, Subros**, and other reputed manufacturers, ensuring that our customers receive only durable and performance-tested cooling solutions.

Backed by years of experience in the automotive spare parts industry, Parashar Radiator Sales is committed to:

- Supplying OEM-grade radiators and cooling components
- Maintaining ready stock availability for multiple brands & vehicle models
- Delivering products with assured quality and timely service

Our mission is simple:

- To keep your engines cool, your vehicles reliable, and your business running without downtime.

Passenger Vehicle Radiators :

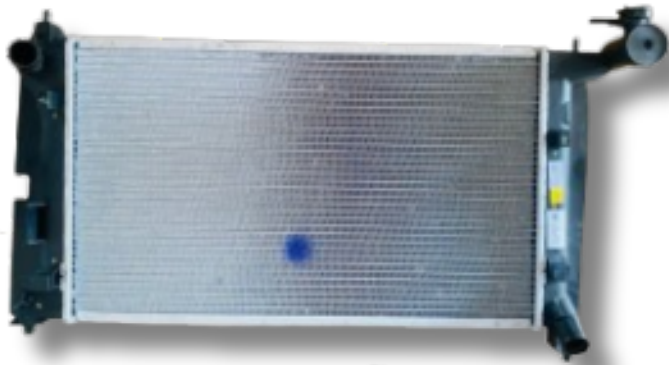

Our Passenger Vehicle Radiators are designed to deliver efficient engine cooling and ensure long-lasting performance for all leading car brands. Manufactured using high-grade aluminum cores with durable plastic or brass tanks, these radiators are built to handle high thermal loads while maintaining lightweight efficiency.

We offer a wide range of radiators compatible with popular passenger vehicles including Toyota, Maruti Suzuki, Hyundai, Honda, Mahindra, Tata, Ford, and more.

◆ Key Features:

- OEM-quality design for perfect fit and performance
- High cooling efficiency to prevent overheating in all driving conditions
- Corrosion-resistant materials for extended service life
- Available in multiple specifications & part numbers for different models
- Tested for durability & leak-proof performance

Some Of Our PASSENGER VEHICLE RADIATOR ARE :-

Commercial Vehicle Radiators :

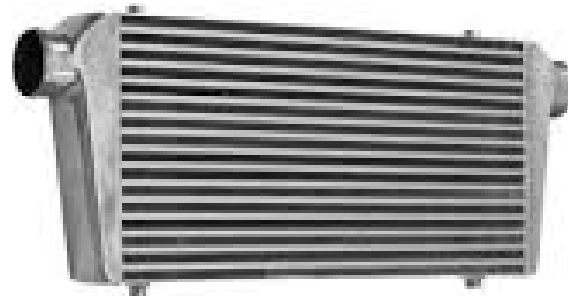

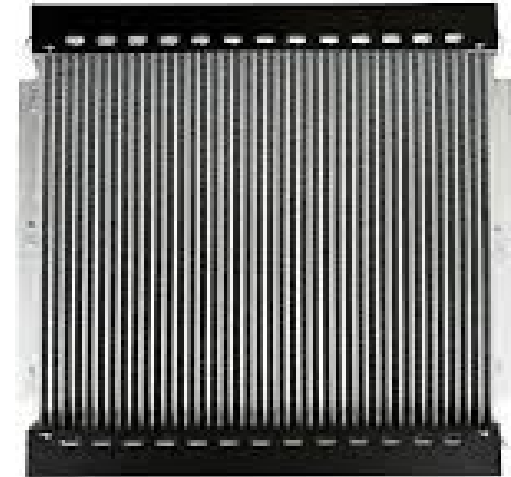

Our Commercial Vehicle Radiators are engineered for trucks, buses, and light commercial vehicles, ensuring maximum cooling efficiency under heavy-duty conditions. Built with reinforced aluminum and brass construction, they deliver superior durability, resistance to vibration, and long service life. Designed to meet OEM standards, they guarantee reliable performance for brands like Tata, Ashok Leyland, Eicher, Isuzu, and Mahindra

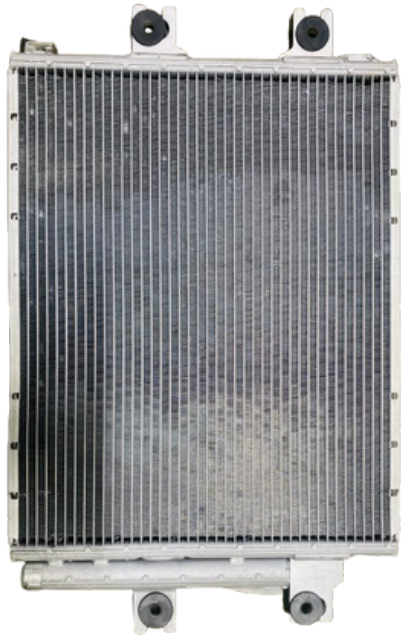

Heavy-Duty & Industrial Radiators :

Intercoolers & Oil Coolers :

AC Condensers & Fan Motor Assembly

Why Choose Us ?

- At Parashar Radiator Sales, we believe in building trust through quality, performance, and service. Here's why our customers prefer us:
- **Comprehensive Product Range** – From radiators, intercoolers, oil coolers, condensers, fan assemblies, to coolant tanks, we provide complete cooling solutions for all vehicle types and industries.
- **Uncompromising Quality** – Our products are built with durable materials and precision engineering, ensuring long-lasting performance under the toughest conditions.
- **Competitive Pricing** – We offer value-driven solutions with the right balance of quality and affordability, helping customers save on maintenance costs.
- **Reliable Service & Support** – Quick response, on-time delivery, and dedicated after-sales support make us a trusted partner for workshops, distributors, and fleet operators.
- **Proven Expertise** – With years of industry experience, we understand customer needs and deliver cooling systems that maximize efficiency and reliability.
- **Customer-Centric Approach** – We focus on long-term relationships, offering tailor-made solutions to meet diverse requirements.
